Professional Summary

Results-driven Data Analyst and Full Stack Web Developer with proven experience in **data analysis, predictive modeling, and process automation**. Strong command of **Python, SQL, and Machine Learning**, coupled with hands-on development expertise using the **MERN stack**. Proficient in agile methodologies and cross-functional collaboration. Passionate about **leveraging data insights and technology to drive growth, strategic decision-making, and operational efficiency**.

Professional Experience

Data Analyst | Freelance | 2024 – Present

AgroDashRD (4/2025 - 5/2025): Developed an interactive tool for visualizing and analyzing Dominican agricultural sector data, integrating KPIs, ETL functionalities, price prediction models, and outlier detection to facilitate data-driven decision-making. Conducted Exploratory Data Analysis (EDA), improving decision-making by 30%. Developed Machine Learning models with over 85% accuracy. Automated data processes, reducing manual workload by 40%. Designed and optimized interactive Streamlit dashboards for KPI tracking, increasing visibility by +25%.

Full Stack Developer | Freelance | 2024 – Present

MintDev Setup (5/2025): Developed a script that automates the installation and configuration of common and useful developer tools for Linux Mint Cinnamon, streamlining environment setup with a single command.

Currency Converter (10/2024 - 11/2024): Contributed to the development of a currency exchange rate management and historical data analysis tool. Performed corrections on backend controllers, API creation and handling, and frontend modal optimization and rendering enhancements. Applied Tailwind CSS style corrections for notifications and interface.

Hojutsu Labs Bot (6/2024): Designed the initial model for a Telegram group management bot in Python, with integrated account and credential management for Stripe, PayPal, Tron/Ethereum. Currently under continuous development.

Chatbot Demo (9/2024): Created a web-based chatbot demo, utilizing the Google Gemini API to generate dynamic responses. Implemented error handling and a dynamic interface that automatically adjusts to chat content.

Chief Operating Officer | Crypto Matatan | March 2024 – January 2025 (11 months): Responsible for overall operational efficiency and strategic execution of Crypto Matatan's services. Led process optimization for educational program delivery, analytical tools, and community engagement initiatives. Focused on streamlining operations and effectively implementing the company's mission to simplify cryptocurrency learning.

Chief Content Editor | Launchpad Manager | NFT Specialist | Content Creator | Crypto Matatan | April 2023 – March 2024 (1 year): Oversaw the creation, editing, and delivery of educational content on cryptocurrency and blockchain topics, ensuring clarity and accuracy. Managed launchpad operations for new crypto projects and provided specialized expertise in Non-Fungible Tokens (NFTs). Directly contributed to content creation initiatives.

Manager of Customer Experience | Crypto Matatan | December 2021 – April 2023 (1 year 5 months) | San Diego, California, USA: Managed and optimized all aspects of customer interaction and support to ensure a positive and effective learning experience. Focused on fostering customer satisfaction and loyalty within the platform's user base.

Private Tutor | Independent | 2018 – 2022: Provided basic and intermediate English classes to children and adolescents.
Offered tutoring and reinforcement in mathematics (algebra and pre-calculus) to adolescents and adults.

Sales Representative / Assistant | Molinos del Lago SRL | October 2023 – Present

Entrepreneurial Ventures

Head of Procurement & Owner | DACAPAT SRL (State Supplier) | 2020 - Present
Independent Agricultural Producer | 2014 – Present
Retail Beauty Products Vendor | BIOS CARE | 2016

Education

Diploma in Data Analysis & Machine Learning – Talendig
Diploma in Full Stack Development – Talendig
Bachelor's Degree in Education with a focus on School Informatics (In Progress) – Universidad Autónoma de Santo Domingo (UASD)
Specialization in Electoral Administration – IESPEC
Diploma in Teaching Qualification – Universidad Católica de Santo Domingo (UCSD)
English Immersion Program (Upper-intermediate/B2) – MESCYT

Skills

Data Science & Machine Learning: Python (Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch, Keras), SQL (MySQL, PostgreSQL), Exploratory Data Analysis (EDA), Predictive Modeling, Data Automation, Web Scraping, Streamlit, Jupyter, Power BI, Tableau.
Full Stack Development: MERN Stack (MongoDB, Express.js, React, Node.js), TypeScript, JavaScript, HTML5, CSS3, Next.js, Tailwind CSS, Material UI, Vite.
DevOps & Tools: Git, GitHub, Docker, Vercel, Google Cloud, Office 365 (Excel), Trello, Slack, Microsoft Teams, Asana, Figma, Adobe Photoshop, Adobe Illustrator.
Other Skills: API Development, Data Cleaning, Cross-functional Team Leadership, Strategic Planning, Operational Management
