PROFESSIONAL SUMMARY

Results-driven Data Analyst and Full Stack Web Developer with proven experience in data analysis, predictive modeling, and process automation. Strong command of Python, SQL, and Machine Learning, coupled with hands-on development expertise using the MERN stack. Passionate about leveraging data insights and technology to drive strategic decision-making and operational efficiency.

PROFESSIONAL EXPERIENCE

Critical Infrastructure Recovery Jan 2026
KairosExperiences.com

- Led emergency recovery of corporate portal following a critical server collapse.
- Executed surgical database intervention using raw SQL to restore orphaned IDs directly in MySQL.
- Resolved persistent 500 Errors and restored 100% functionality preserving WPO configs.

Freelance Web Developer Sep 2025 – Dec 2025
feelthehealing.org

- Developed holistic healing website from scratch using WordPress & Elementor.
- Implemented AI-assisted design and advanced image optimization (WebP, Lazy Load).
- Achieved PageSpeed >90 via SEO strategies.

Data Analyst Apr 2025 – May 2025
AgroDashRD (Freelance)

- Engineered an end-to-end agricultural intelligence platform using Streamlit and Python.
- Built automated ETL pipelines to ingest sector data, reducing manual workload by **40%**.
- Deployed a Random Forest price prediction model with **>85% accuracy**, improving decision-making by **30%**.

Full Stack Developer Projects 2024 – Present
Freelance

- **MintDev Setup:** Engineered a Bash automation script to provision Linux development environments, drastically reducing setup time.
- **Hojutsu Labs Bot:** Architected a secure Telegram bot in Python integrating Stripe/PayPal/Blockchain APIs for automated user credential management.
- **Currency Converter:** Refactored Node.js backend controllers to optimize API response times. Modernized the frontend UI using Tailwind CSS.
- **Chatbot Demo:** Implemented a dynamic conversational interface leveraging the Google Gemini API, featuring context-aware responses.

Sales Representative / Assistant Oct 2023 – Present
Molinos del Lago SRL

- Optimized B2B sales logistics and client relationship management.
- Leveraged Excel to track inventory turnover and sales performance KPIs, ensuring accurate stock levels.

Chief Operating Officer Mar 2024 – Jan 2025
Crypto Matatan

TECHNICAL SKILLS

Data Science & ML

- Python (Pandas, NumPy)
- Scikit-learn, TensorFlow
- PyTorch, Keras
- SQL (MySQL, PostgreSQL)
- EDA & Predictive Modeling
- Web Scraping, Streamlit
- Power BI, Tableau

Full Stack (MERN)

- MongoDB, Express.js
- React, Node.js
- TypeScript, Next.js
- JavaScript (ES6+), HTML5
- Tailwind CSS, Material UI

DevOps & Tools

- Git, GitHub, Docker
- Vercel, Google Cloud
- Photoshop (AI), Figma
- Linux (Mint/Debian)

EDUCATION

Bachelor's in Education
(School Informatics)
UASD - In Progress

Diploma: Data Analysis & ML
Talendig

Diploma: Full Stack Dev
Talendig

English Immersion (B2)
MESCYT

Electoral Administration
IESPEC

LANGUAGES

Spanish: Native
English: Professional (B2)

- Orchestrated daily operations for the crypto education platform.
- Implemented agile workflows (Asana/Notion) that increased team productivity.
- Led the strategic integration of new analytical tools for community growth.

Chief Content Editor & NFT Specialist *Apr 2023 – Mar 2024*
